PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Python, Power BI, and Excel, supported by a Graduate Trainee role at General Mills India Center. Built analytics solutions across billing, operational, and service datasets containing 100K+ records, delivering KPI reporting, anomaly detection, and operational insights for business decision-making.

TECHNICAL SKILLS

Analytics & Reporting

KPI Reporting, Data Analysis, Trend Analysis, Root Cause Analysis, Data Validation, Business Intelligence.

Tools & Technologies

SQL (Joins, CTEs, Window Functions, Aggregations), Python (Pandas, NumPy, Matplotlib, Seaborn), Power BI Excel (Power Query, Pivot Tables, Dashboards, Lookup Functions), MySQL, PostgreSQL, Git/GitHub, Jupyter Notebook.

PROFESSIONAL EXPERIENCE

Graduate Trainee, Data Associate General Mills India Center (GIC), Powai, Mumbai (Via HGS)

Mar 2026 – Present

- Support North America sales operations by maintaining and validating promotional contract data across retail accounts.
- Perform data validation and reconciliation activities using Excel and internal business systems to improve accuracy of trade promotion records.
- Track advertising contracts and promotional schemes using Trade Planner and NielsenIQ platforms, supporting reporting and operational workflows.
- Collaborate with internal teams to ensure timely contract processing and data consistency across sales operations activities.
- Develop understanding of FMCG trade marketing processes, retailer incentive programs, and promotional performance tracking.

PROJECTS & ANALYTICS EXPERIENCE

Revenue Leakage Detection & Recovery – SaaS Billing Forensics

Tools: SQL, Python, Power BI, Excel

Dec 2025 – Dec 2025

- Analyzed subscription, invoice, and payment records to identify potential revenue leakage across SaaS billing operations.
- Built a structured analytics dataset using SQL and Python by integrating multiple transactional data sources.
- Used joins, CTEs, and window functions to segment customer accounts and isolate high-risk billing anomalies.
- Identified approximately \$18.3K in estimated leakage opportunities from December 2025 billing data through invoice and payment reconciliation analysis.
- Developed a Power BI dashboard enabling finance-focused monitoring of billing exceptions and recovery opportunities.
- Presented findings and recommended prioritization areas based on leakage category trends.

Operational Backlog Monitoring & Risk Analysis

Tools: Microsoft Excel (PivotTables, Slicers, Power Query, Charts)

Feb 2026 – Feb 2026

- Analyzed 100K+ NYC 311 service request records to evaluate operational backlog and service response performance.
- Cleaned and transformed raw operational data using Power Query to create an analysis-ready dataset.
- Performed trend analysis on resolution timelines to identify growing backlog areas and delayed-response patterns.
- Designed aging analysis to highlight service requests exceeding target resolution windows.
- Built an interactive KPI reporting dashboard to support operational monitoring and prioritization decisions.
- Generated recommendations on workload prioritization based on backlog concentration and aging trends.

EDUCATION

- B.Sc. in Information Technology**, University of Mumbai: Jul 2022 - Apr 2025 | CGPA: 8.78/10 (A+)
- HSC (Science)**, Maharashtra State Board: 2022 | 59.17%
- SSC**, Maharashtra State Board: 2020 | 73.00%

CERTIFICATIONS

- Data Analyst Course at Quastech Institute**: Practical training in SQL, Python, Excel, and Power BI covering data cleaning, analysis, and dashboard development.
- Oracle Analytics Cloud 2025 CP**: Certified in data modeling, visualization, and augmented analytics using Oracle Analytics Cloud.
- Deloitte Data Analytics Simulation**: Applied data cleaning, analysis, dashboard development, and client reporting in a simulated consulting project.
- Introduction to SQL (DataCamp)**: Learned database querying, filtering, aggregation, joins, and relational data analysis using SQL.
- Introduction to MS Excel**: Developed foundational skills in Excel for data preparation, analysis, and reporting.

ACHIEVEMENTS & HIGHLIGHTS

- Graduated with **A+ academic performance (CGPA 8.78/10)** in B.Sc. Information Technology.
- Completed **four end-to-end analytics projects** across SaaS billing, telecom churn, operational backlog monitoring, and IT service management analytics.
- Analyzed **100K+ real-world datasets** across multiple domains to identify trends, operational risks, and performance insights.
