PROFESSIONAL SUMMARY

Data Analyst with a B.Sc. in Information Technology (CGPA 8.78/10) and hands-on experience transforming raw data into actionable business insights using SQL, Python, Power BI, and Excel. Experienced in exploratory data analysis (EDA), ETL processes, data wrangling, and statistical analysis across projects involving SaaS billing, telecom churn, and operational service data. Proven ability to build KPI dashboards, perform root-cause analysis, and communicate insights through clear data storytelling to support data-driven decision-making.

TECHNICAL SKILLS

Data Analysis & Business Intelligence

Exploratory Data Analysis (EDA) · Statistical Analysis · Trend Analysis · Root Cause Analysis · Data Cleaning · Data Wrangling · Business Intelligence · KPI Reporting

Programming & Query Languages

SQL (Joins, Window Functions, CTEs, Aggregations) · Python (Pandas, NumPy, Matplotlib, Seaborn)

Data Visualization & Tools

Power BI · Excel (Advanced Formulas, Pivot Tables, Power Query, Dashboards) · Tableau (Basic)

Data Engineering & Platforms

ETL Processes · Data Modeling · Data Quality Validation · SQL Databases (MySQL, PostgreSQL) · Jupyter Notebook · Git/GitHub

PROJECTS & ANALYTICS EXPERIENCE

Revenue Leakage Detection & Recovery – SaaS Billing Forensics

Tools: SQL, Python, Power BI, Excel

Dec 2025 – Dec 2025

- Built an ETL workflow using SQL and Python to integrate subscription, invoice, and payment tables into an analytics-ready dataset with structured transformations.
- Conducted exploratory data analysis and root-cause analysis to identify four revenue leakage categories totalling **\$18,348.15 in losses**.
- Authored advanced SQL queries using joins, window functions, and CTEs to segment customers and highlight high-risk revenue recovery opportunities.
- Developed an interactive **Power BI KPI dashboard** enabling stakeholders to monitor recovery opportunities and billing anomalies.

Operational Backlog Monitoring & Risk Analysis

Tools: Microsoft Excel (PivotTables, Slicers, Power Query, Charts)

Feb 2026 – Feb 2026

- Processed **100K+ NYC 311** service request records using Excel Power Query to clean, transform, and structure operational data for analysis.
- Performed trend and statistical analysis on service resolution metrics to detect backlog growth and delayed response patterns.
- Built an interactive Excel KPI dashboard using PivotTables, slicers, and charts to visualize agency-level demand and resolution efficiency.
- Designed aging bucket analysis (90+ days) to identify extreme delays and support operational prioritization decisions.

Telecom Customer Churn Analysis

Tools: SQL, Business Intelligence

Oct 2025 – Oct 2025

- Extracted and prepared telecom customer data from a normalized relational database using SQL joins and aggregation queries.
- Conducted exploratory data analysis to identify churn drivers across contract types, service bundles, and customer segments.
- Discovered a **43% churn concentration in month-to-month contracts**, highlighting key risk segments for retention strategies.
- Applied data validation and cleaning logic to ensure dataset integrity before performing customer segmentation analysis.

EDUCATION

- B.Sc. in Information Technology**, University of Mumbai : Jul 2022 - Apr 2025 | CGPA: 8.78/10 (A+)
- HSC (Science)**, Maharashtra State Board : 2022 | 59.17%
- SSC**, Maharashtra State Board : 2020 | 73.00%

CERTIFICATIONS

- Data Analyst Course Quastech Institute** : Practical training in SQL, Python, Excel, and Power BI covering data cleaning, analysis, and dashboard development.
- Oracle Analytics Cloud 2025 CP** : Certified in data modeling, visualization, and augmented analytics using Oracle Analytics Cloud.
- Deloitte Data Analytics Simulation** : Applied data cleaning, analysis, dashboard development, and client reporting in a simulated consulting project.
- Introduction to SQL (DataCamp)** : Learned database querying, filtering, aggregation, joins, and relational data analysis using SQL.
- Introduction to MS Excel** : Developed foundational skills in Excel for data preparation, analysis, and reporting.

ACHIEVEMENTS & HIGHLIGHTS

- Graduated with **A+ academic performance (CGPA 8.78/10)** in B.Sc. Information Technology.
- Completed **four end-to-end analytics projects** across SaaS billing, telecom churn, operational backlog monitoring, and IT service management analytics.
- Analyzed **100K+ real-world datasets** across multiple domains to identify trends, operational risks, and performance insights.
- Developed **interactive KPI dashboards in Power BI and Excel** to support data-driven decision-making and operational monitoring.
